

Why Suffer When You Can Be Cured Quickly and Permanently?

The many patients that we have cured after they had been the rounds of so-called Specialists, testify that they received better treatment at our Institution than anywhere, and were quickly relieved of their pain and distress, and restored to health. Many escaped

Serious Surgical Operations

as OUR METHODS cure without resorting to these barbarous practices, that are only resorted to by those who have not devoted their time to the study of the many forms of Chronic Diseases.

We Cure Chronic Diseases By Modern Methods

For years we have devoted all of our time to this class of troubles and are curing the worst forms of troubles in a short time.

DISEASES OF MEN AND WOMEN yield quickly to our treatment. We mention a few of the Diseases:

CATARH in all its forms, where there is a continual hawking and spitting, or a dryness of the throat; this condition, neglected, leads to a loss of the sense of smell and destroys the hearing.

CONSTIPATION is quickly and permanently cured by our method; this trouble alone will, if neglected, give rise to many complications, as loss of appetite, offensive breath, sallow and blotched complexion, etc., etc.

RUPTURE, a very dangerous trouble. Why wear a truss, when you can be cured without an operation, and at a small cost?

LIVER AND KIDNEY TROUBLES, NERVOUS DECLINE IN ALL OF ITS FORMS is quickly cured.

WEAKNESSES, which means more than the word implies; there is a feeling of unrest, an unsatisfied condition prevails, something is wrong; see us and find out what the trouble is; it may save you years of suffering, and bring happiness into the remaining years of your life.

We Cure Without Pain or Detention From Business

If unable to call, write for our FREE BOOKS—DISEASES OF MEN, DISEASES OF WOMEN, and CHRONIC DISEASES, and our SYMPTOM BOOK, as many can be cured by OUR HOME TREATMENT.

Which Is Better for Arizona—Prosperity or Experiment?

What Every Arizona Voter Should Know and Why

Arizona has hundreds of thousands of acres of land that should be tapped by railroads.

One running from \$10 to \$40 a ton is being thrown on the dump because it costs too much to haul it to a railroad.

What Arizona needs most to develop her resources is Railroads.

Under the laws of the State and the rules of the Interstate Commerce Commission, railroads cannot make improvements or extensions except with borrowed money. (See Laws of the First Legislature of the State of Arizona, Chap. 50, Sec. 48, and Rules of I. C. C.)

By reason of the absolutely unnecessary expense and unfair reduction of earnings, it will cost the railroads about one and a half million dollars a year, if the bills submitted to the people to be voted on November 5th become laws.

One and a Half Million Dollars will pay interest, at 5 percent, on Thirty Million Dollars. These bills will exclude just that much capital from the state, which could be invested, would develop the country and give employment to thousands of people.

THE MEN WHO HAVE SUBMITTED THESE BILLS HAVE CONFIDENCE THAT THE PEOPLE WILL GIVE THE RAILROADS A SQUARE DEAL. THEREFORE, THE RAILROADS HAVE REFUSED HERETOFORE TO TREAT WITH SELF-SEEKING POLITICIANS AND HAVE APPEALED THEIR CASE TO THE PEOPLE OF THE STATE OF ARIZONA.

PROSPERITY FIRST, EXPERIMENT SECOND, THEREFORE, DEFEAT THESE BILLS NOVEMBER 5TH.

"AN ACT REGULATING THE NUMBER OF MEN TO BE EMPLOYED ON TRAINS AND ENGINES."

(On Official Ballot, Nos. 304 and 305—House Bill No. 44.)

This is a useless expenditure of money and against public policy. It requires an extra man on light engines, that is, engines that are not pulling cars. Of what earthly use is such a man? Where would he sit? What would he do? Just draw pay. Do you think that is fair? Certainly you don't. The fewer men on an engine the better. There is less chance of their talking instead of attending to business, and causing a wreck.

"AN ACT REGULATING HEADLIGHTS ON ALL LOCOMOTIVES."

(On Official Ballot, Nos. 306 and 307—House Bill No. 42.)

It practically creates a monopoly. One company, the Pyle Co., virtually controls all high candle power electric headlight patents. What was the power behind the throne. Experiments have shown conclusively that electric headlights are dangerous on double track. Inventions are coming so thick and fast that this form of light may be a back number in two or three years. Why tie the railroads down with a law and prevent them from taking advantage of new inventions? Even now, competent authorities disagree as to the best form of headlight.

"AN ACT REQUIRING ALL ENGINEERS AND CONDUCTORS TO HAVE THREE YEARS' EXPERIENCE BEFORE BEING ELIGIBLE TO HOLD SUCH POSITION."

(On Official Ballot, Nos. 308 and 309—House Bill No. 50.)

It is class legislation that forces every man who now holds a position as an engineer or conductor, if he did not have three years' experience as a fireman, or a brakeman, to give up his job. Experience won't make brains. Some men might be firemen, or brakemen, for years and still be unfitted for promotion, and others, after one year's experience would be perfectly competent to handle a train. The law rolls the sons of Arizona of their birthright and forces them to give way, because of lack of opportunity, to the tramp engineer, or conductor—men who are able to produce letters showing they have had three years' experience, letters that may be forged.
